

2020 is going to finish

Now we need to face 2021

There may be risks involved

We may need to face roadblocks

So stay alert

Share ideas with friends

Jump over the obstacles

With care

And caution

Face challenges

Remember to laugh

And cooperate

Discover

Make new friends

Above all ... be ready for adventure

Stick together

And you will go far

Very far ...

Well, not quite that far.....

Always take time to smell the flowers

Don't forget to relax and enjoy

**And please also don't forget,
that we all have to work with
greater attention & alertness;
put in extra efforts to come out
of difficult times; and make our
Department proud**

Wish You All A Very Happy New yearⁱ

&

**with hope that this year starts with beginning of an end to a difficult year
we all faced.**
