Subject: GK

Date: _____

Name of the Student: _____

Roll no.: _____

2. Read the poem and answer the following questions.

January and February – the starting pair,

March and April – Easter somewhere is there.

Then there is May, followed by two more with “J”.

They are June and July.

Those are two of the warmest. Another warm month is August.5

Then come the four “ber”,

September, October, November and December.

Written by unknown.

Fun with months of the year:

Last month _____

First month _____

How many months have “ber” in their name _____

How many months start with letter “J” _____

How many months are there in a year? _____
